0% interest,
12-month
payment plan

Direct Install is a turnkey energy efficiency program that makes it easy and affordable to upgrade to high efficiency equipment.

Willdan, which has been selected by Potomac Edison to implement the program, will provide you with a NO COST energy assessment to identify eligible equipment replacements, help you complete the application/agreement, then replace the equipment in a convenient and timely way.

The **program pays up to 70%** of eligible retrofit costs, dramatically improving your payback on the project. Plus, you'll continue to save energy and money for years to come.
